

KINGS of Colour

KING® Fuji VW® Spur KING® Grofn Fuji® Standard

- Super red blush types
- Early coloration decreases sunburn
- Higher percentage of overcolour compared to all competitors

For growth, we distinguish KING® Fuji VW® Spur and KING® Grofn Fuji® Standard. KING® Fuji VW® performs in a wonderful manner even at higher age of trees because of its compact growth and better light/sun penetration.

Therefore every Fuji grower has an option:

- Striped, with or without the KIKU®-concept: Fubrax®;
- In orchards with strong growth, KING® Fuji VW® Spur is the best solution;
- Whoever is unhappy with Aztec®, has with KING® Grofn Fuji® Standard the best solution.

KIKU®, Club of striped Fujis

Fuji KIKU® Fubrax®
The only recommended striped Fuji
with garanted PBR in EU

- Ruby red striped
- Intense overcolour, also in shadow part of the tree
- Fubrax is the sole strain for the globally successful Apple Club
